STATE OF WISCONSIN DEPARTMENT OF PUBLIC INSTRUCTION

Initial Educator Toolkit

The Professional Development Plan Initial Educator Toolkit has recently been updated and is available for purchase from the Department of Public Instruction (DPI). The toolkit is for any initial educator wishing to create a Professional Development Plan (PDP) for re-licensure.

The Wisconsin Quality Educator Initiative provides the foundation for preparing and supporting highly qualified educators in our schools. To raise all students' achievement and to provide them the best educational experience, Wisconsin embarked upon redesigning both the educator preparation program approval process and the process for license renewal. In 2000, Wisconsin legislators approved Wisconsin Administrative Code PI 34, resulting in the implementation of an educator preparation program approval process and educator licensing process that are both standards and performance-based.

Under the new system, educators must create and implement a verifiable Professional Development Plan during their licensure cycle. The toolkit provides the guidelines and the accompanying process for creating and submitting a PDP. It was developed by the DPI in partnership with many educators, administrators, pupil services personnel, and higher education representatives. The toolkit, originally published in 2005, proved to be an invaluable resource. Because of high demand from the education community, the toolkit was updated and re-released.

The Professional Development Plan Initial Educator Toolkit is a must for all new educators.
