The school closure information is based on voluntary reports to the Centers for Disease Control and Prevention school dismissal monitoring system, the Wisconsin Department of Public Instruction and the Wisconsin Department of Health Services. It may not be complete. Parents and other community members should verify school closures and reopening dates with local school authorities.

Reporting School Closure

A common reporting form has been created that requires only the name and zip code of the school or school district, the date they first dismiss students, and the projected date they plan to re-open. School districts and local public health agencies may complete this form via the Web at the button provided above, email FluSchoolDismissal@cdc.gov, or fax (770-488-6156). All Web and email submissions will be sent simultaneously to CDC and Wisconsin Department of Public Instruction.
